06/30/2013 07:33:30			Called and talked to Steve at Prescott to request T-830 for the Yarnell fire from the Dean Peak fire. He advised that they released T-830 in ROSS last night after seeing him flying on the Yarnell Hill fire. Steve said T-830 was told by the Dean Peak AA to go to Prescott SEAT base to hold till weather passes. Steve said they are going to investigate why the tanker returned to Wickenburg and started flying on the Yarnell Fire. I told him that I was sorry for the confusion and ended the conversation.
